Tidel Series 3
with Single Coin Acceptor

The Tidel Series 3 smart safe enables retailers to securely deposit their cash throughout their business day. When equipped with the Single Coin Acceptor module, retailers now have the ability to deposit individual coins into a secure coin receptacle, allowing for a fast and convenient way to deposit coins whenever required. The Single Coin Acceptor module provides an easy to use interface for the depositing of coin and also comes comes equipped with a return button in the event a coin is placed into the deposit slot yet doesn't get recognized. All note and coin deposits are recorded, enabling complete transparency and auditability for all cash transactions.

The Single Coin Acceptor module provides retailers with a convenient way to facilitate reconciliations down to the individual coin level.

The Tidel Series 3 offers an expansive software suite that provides a complete cash management application with full accountability and auditability of all system activity. The Series 3 can easily connect to a store's network - via Ethernet or cellular – enabling full visibility to all system transactions from a remote location. The Series 3 offers an easy to use 7-inch color console and comes equipped with one single or bulk note validator, supports one standard (1,200 note) or XL (2,250 note) cassette, and offers a manual storage vault for non-cash items such as checks.

Series 3 serviceability is extremely efficient and cost-effective. The main CPU board and power supply are easily accessible via the system console, making service calls faster, more secure, and less expensive. The Series 3 note validator can be easily removed to clear a note jam, without the need for an expensive service call.

Tidel Series 3
with Single Coin Acceptor
Specifications
