

Tidel Series 4e

The Tidel Series 4e offers industry-leading expansion capabilities that retail organizations require to manage their day-to-day cash management business. The Tidel Series 4e and supported peripherals enable retail organizations to recycle coins, dispense coins and notes, and scale their note deposit and validation capabilities. By supporting these peripherals, the Tidel Series 4e is the only choice for retail organizations that require end-to-end cash management solutions that address a diverse set of needs. Refer to the peripheral options below to find the solutions that work best for your business. Then use our Series 4e Configuration Tool to configure a system that best meets your needs.

EXPANSION CAPABILITIES FOR NOTE DISPENSING, COIN DISPENSING AND RECYCLING, AND NOTE VALIDATION

The Tidel Series 4e offers industry-leading expansion capabilities that enable retail organizations to recycle coins, dispense coins and notes, and scale their note deposit and validation capabilities. By supporting these peripherals, the Tidel Series 4e is the only choice for retail organizations that require end-to-end cash management solutions that address a diverse set of needs.

CONNECTIVITY AND UPGRADEABILITY

The Series 4e and supported peripherals connect via data cables that are provided with each system. The cables are offered in up to 100' lengths, which enable unparalleled flexibility when placing the systems in a store environment. In addition, by offering this connectivity method, peripherals can be purchased and deployed after a Series 4e has been placed in a store, enabling a simple and effective upgrade path.
